PROFESSIONAL SUMMARY

Software Engineer with around 2 years of experience in Java, Spring Boot, REST APIs, and microservices-based enterprise application development. Built backend features for the Penske Truck Leasing platform at Capgemini, with hands-on experience in module development, SQL debugging, and defect root cause analysis. Additional experience with React.js and frontend development. PG-DAC certified from CDAC Bangalore.

TECHNICAL SKILLS

- Backend: Core Java, Spring Boot, Spring MVC, Hibernate / JPA, REST APIs, Microservices
- Frontend: React.js, JavaScript (ES6), HTML5, CSS3
- Database: MySQL, SQL Server, JDBC, SQL Debugging
- Testing & Practices: JUnit, Postman, Agile / Scrum, Root Cause Analysis (RCA)
- DevOps & Tools: Git, Bitbucket, Maven, IntelliJ IDEA, VS Code, Linux CLI, Jira

WORK EXPERIENCE

Capgemini — Software Engineer

Oct 2024 – Sep 2026

Bengaluru, India | Java / Spring Boot / Enterprise Backend

- Implemented stage-transition validation logic for the Deal Management module (Proposed → Quoted → Signed) on the Penske Truck Leasing enterprise platform.
- Developed and enhanced backend modules using Java, Spring Boot, and REST APIs, supporting commercial fleet leasing operations.
- Performed SQL debugging and root cause analysis to identify and resolve recurring defects, improving application reliability across sprints.
- Collaborated with cross-functional Agile teams, including business analysts and senior engineers, to translate requirements into backend solutions on schedule.

Paydeer Service Pvt. Ltd. — Frontend Developer

Sep 2022 – Mar 2023

Jaipur, Rajasthan | React.js / Frontend

- Built and maintained reusable React.js components, streamlining development of new features across the product team.
- Improved cross-device responsiveness for desktop and mobile interfaces, enhancing usability for a growing customer base.
- Identified and resolved UI performance bottlenecks, improving rendering and page load experience.
- Managed version control via Git with clean commit workflows, enabling smooth team-wide collaboration.

PROJECTS

EazyStore — Full Stack E-Commerce Application ([GitHub](#))

Tech Stack: Java 21, Spring Boot, Spring Security, JWT, Hibernate, MySQL, React, Bootstrap, REST APIs

- Developed a full-stack e-commerce application with secure JWT-based authentication and role-based access control (Admin/User).
- Developed shopping features including product catalog and product details.
- Designed RESTful APIs using Spring Boot, Spring Data JPA, and MySQL following clean architecture principles.

EDUCATION

Post Graduate Diploma in Advanced Computing (PG-DAC) — CDAC Bangalore

Aug 2024

B.Tech in Computer Science Engineering — Jaipur National University — 7.2 CGPA

Jul 2023

CERTIFICATIONS

- Java Basic Certification — HackerRank .
